Description

Built in GRP as a semi-displacement motor yacht, this 37.75m SANLORENZO SD122 Superyacht was delivered in 2012 to her first Owner (only 2 Owners since new). This superb tri-deck yacht is designed for family and friends spending time on board, with an array of very functional spaces and adaptability. She is one of very few yachts in the highly desirable SANLORENZO SD122 for sale available on the market today.

Presenting a rare opportunity in Asia, with the potential for a short delivery to a new Owner anywhere in the world, she has never been chartered, rarely been slept-in and comes to the market with a high-standard maintenance schedule and relatively low hours.

With a fresh feel throughout, she is ideal for comfortable cruising thanks to her zero speed fin stabilizers, with family and close friends. Her vast social spaces are impressive yet relaxing, and whether you are reading in the saloon or taking in the view from the hot tub on the sundeck, enjoyment is guaranteed.

This stunning example of the successful SANLORENZO SD122 Superyacht has been designed with a very sober Italian contemporary style, around oak and mahogany with a great attention to detail of leather trim and cream furniture. A place to completely forget about your troubles.

The interior is simple yet sophisticated and will be easily accessorised to meet her new Owner's personal touch. With generous interior volumes and superb outdoors lounging areas she is perfect for those looking to relax onboard in the Med or beyond.

She can comfortably accommodate up to 12 guests in 5 en-suite staterooms with the master cabin on the main deck and 4 cabins belowdecks. Further separate accommodation is provided for 7 crew in 4 cabins for maximum service and privacy.

This SANLORENZO SD122 yacht is powered by twin 1624 Hp CAT Diesel engines and is capable of top speeds of 17 knots, while cruising at 11 knots. With fuel-efficient propulsion, the yacht's impressive range reaches 3000 NM.
