En plein SOLEIL

A comfortable and accessible mooring. From every point of view.

Living at the Marina has never been so pleasant and easy with a dedicated mooring for boats from 12 to 16 metres (36 to 52 ft). Perfectly sheltered by the breakwater and with an unbeatable view, this sunny location looks out over the sea and the mountains. It is near the port entrance, free of traffic, with no complicated manoeuvres required. All the berths are easily reached by car, with stern parking for easy loading and unloading.

Naturally, boat owners also have all the Varazze Marina 5-star services at their disposal: quality and reliability most of all. The prices are amazing.

The year of THE CAT

*Two berths for the price of one,
parking and plenty of space.*

Practicality, speed, charm: catamarans are extremely versatile vessels enjoying a fast and constant evolution. They are adored by both expert sailors and those who venture out to sea for the first time and are approved of by both sailing and motor cruiser fans. Unfortunately, their downside comes if one takes into consideration the mooring costs, mainly, and understandably, due to the size of the craft. The Marina di Varazze has decided to support the proud owners of these amazing vessels by making them a very special offer: owners will be granted two mooring bays for the price of one, plus a guaranteed parking space and a boat shed.
