FLYBRIDGE

2021 BROCHURE

A white yacht is shown on the ocean under a clear blue sky. A large white rectangular box is overlaid on the yacht, containing the text "Exterior design." in a serif font.

Exterior design.

F u n c t i o n m e e t s a e s t h e t i c .

“Less is more”, but sometimes “more” can be functional and useful, making a timeless and elegant design. This is the case of our new yachts, where function is combined with aesthetics, which added to a sporty character makes our “AsX” yachts “**Masterpieces of the sea**”

A v a n t g a r d e .

The As5 is the result of the blend of the new contemporary design, style and “color & trim” with our craftsmen’s timeless knowledge. That makes our yacht unique, beautiful, practical and finished flawlessly, where **every detail counts**.

Sleek Design

The new As5 designed in Astondoa by our design department, is the result of an elegant design mixed with sporty details, taking inspiration in the automotive racing sector and the best supercars, where aerodynamics cross with design creating the most beautiful forms. In our case we take that without losing any dot of habitability and creating one unique yacht.

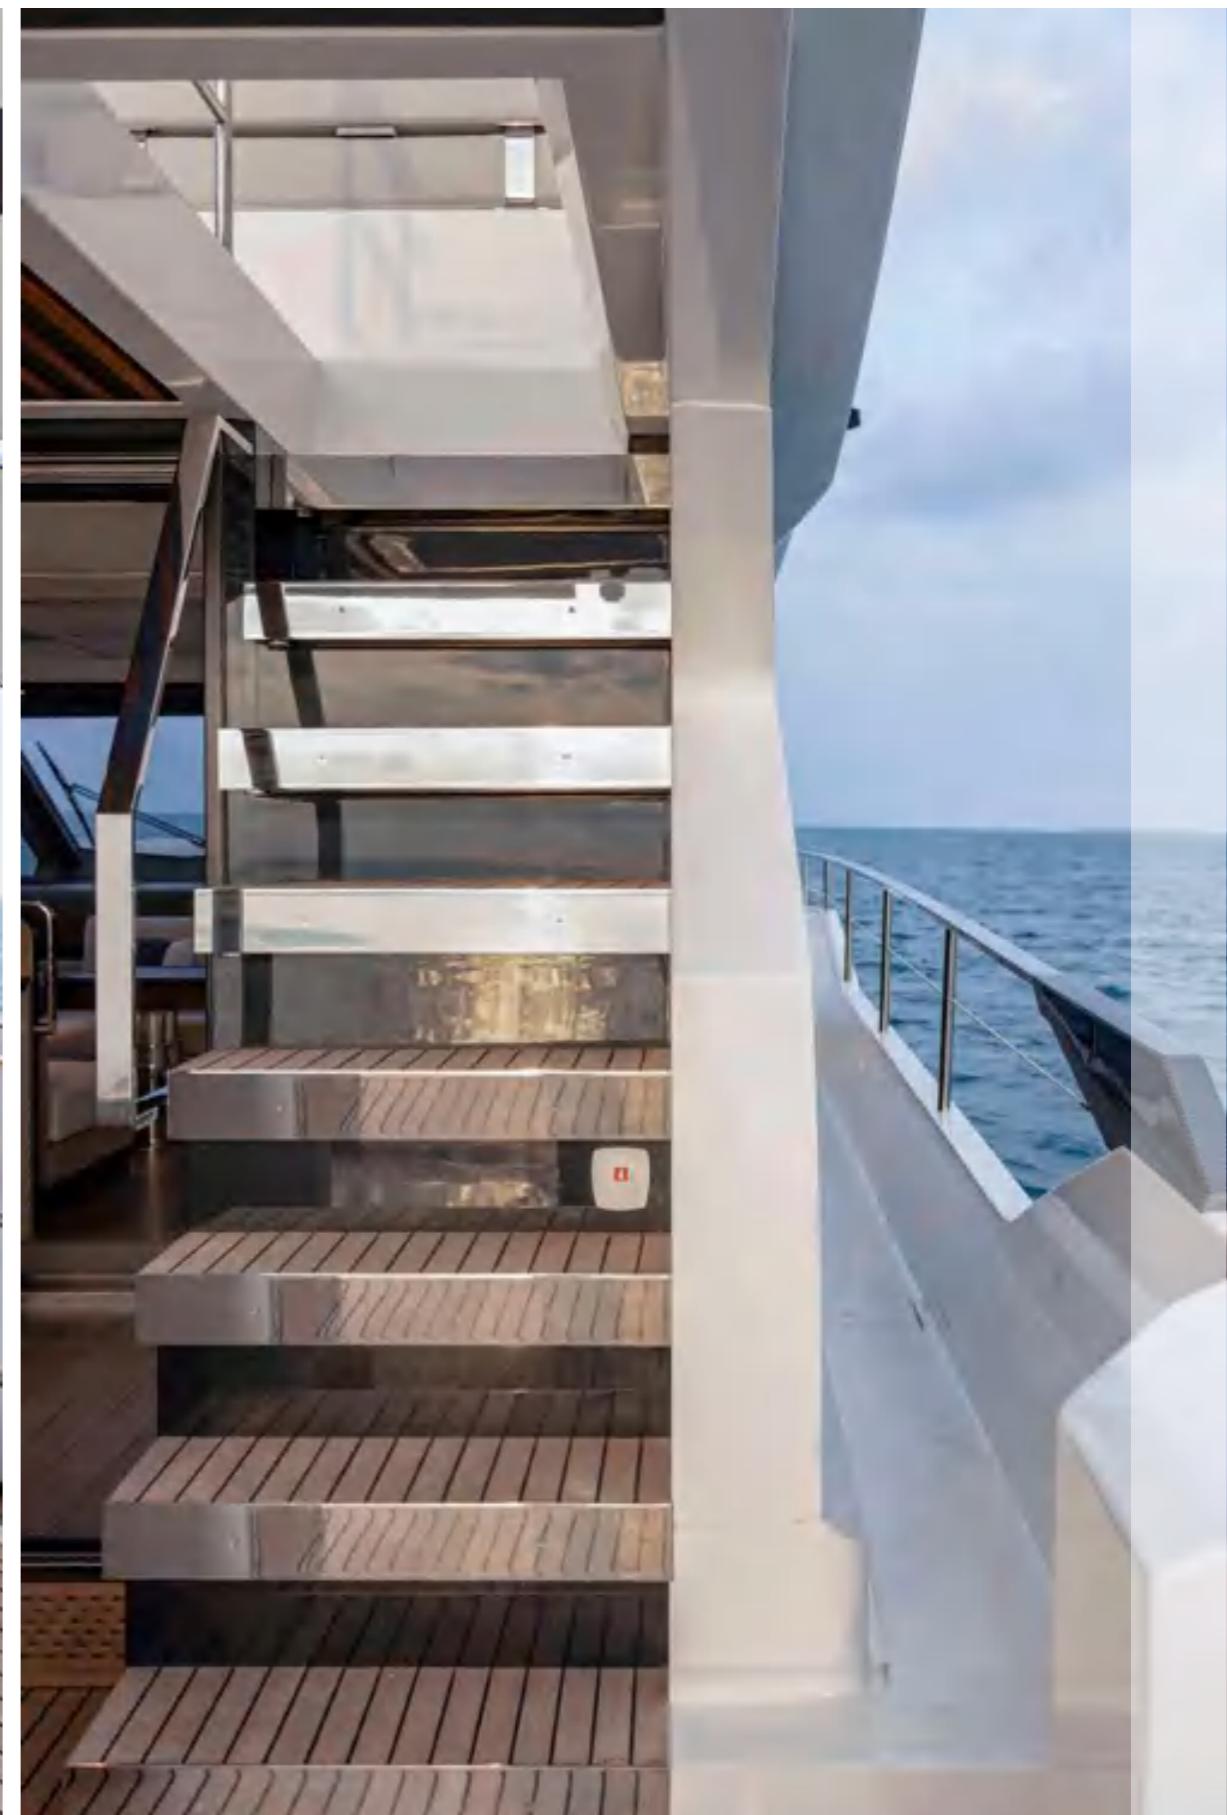

Versatility

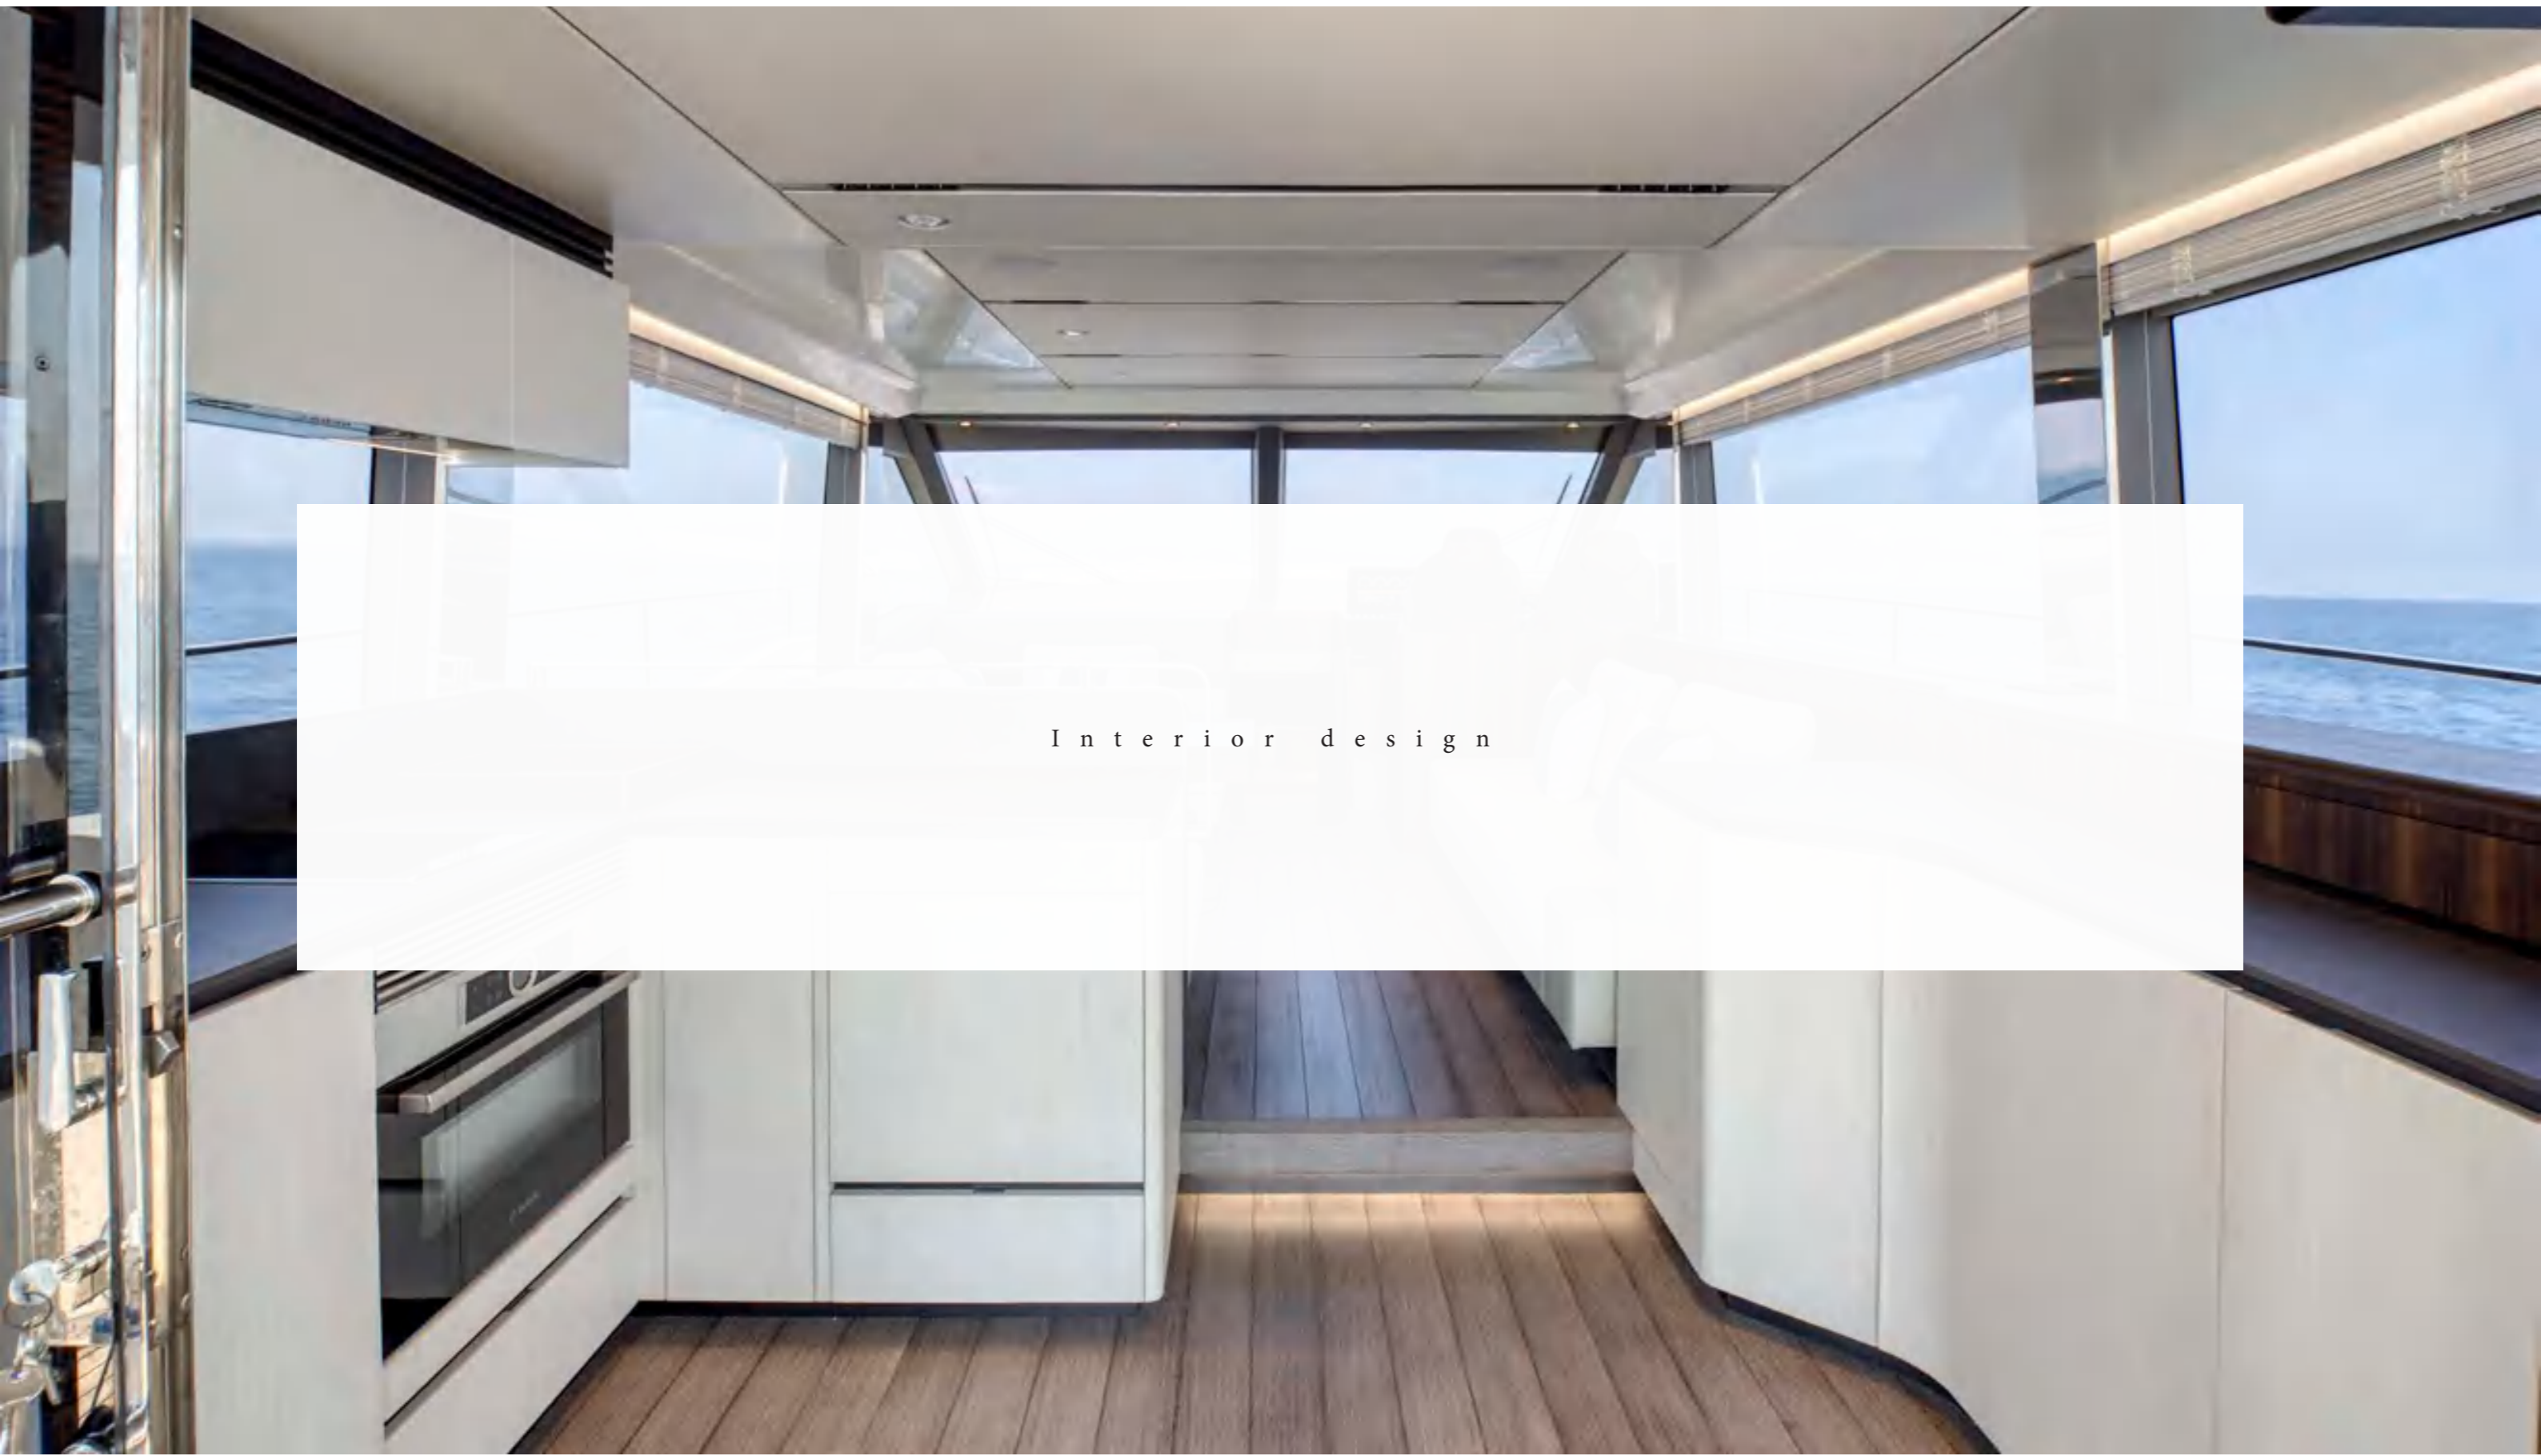

Every Astondoa is unique, and our As5 increase the possibilities with multiple configurations, sporty without hardtop, elegant and practical with it, extended beach club or not... it is all up to you and of course you can count on us in every moment to assessate you and valorate the different options you have. We are a big family and you can be part of it.

Astondoa Design language

The As5 is our new family member, the second one of our "As" line. That means that as Astondoa, this one has similar features with all his older siblings, all look the same but different at the same time, creating the new design language among all our ranges. In the image our 125 Century, the new As8 and As5.
